Changes in Dividend Rates.

The news of market interest concerned changes in dividend rates, arrangements for early hearings of arguments on applications for higher freight rates and movements in money. On the income bonds of the underground electric rations of the underground elec the underground electric railways of London, many of which are held in this country, an initial dividend of one-half of 1 per cent was declared.

The Seaboard company declared a dividend of 21-2 per cent on the first preferred stock, this being the first distribution since the company's reorganization, and the Laclede Gas Company increased its dividend rate from 6 to 7 per cent.

At a hearing in this city before an examiner of the Interstate Commerce Commission, definite arrangements were made for hearing the arguments of the railroads on the question of increasing freight rates, the Western roads to be heard in Chicago, August 29, and the Eastern roads to present their cases in this city September 7.

It was brought out at to-day's session Ray Consolidated that the commission intends to push the cases to the earliest possible conclusion. which may mean that the period of forced economy on the part of the ra roads may be of briefer duration than h been expected. The importance of early decision, of course, is evident, fro an appreciation of the impediment whi enforced railroad economy now offers the progress of general business.

Notwithstanding the changes adverse this center in both foreign and domes exchange time money rates were son what easier here.

LOCAL FINANCIAL GOSSIP.

Business was quite active yesterday at the meeting of the local stock exchange, shade better. Capital Traction 5 per .. 140,500 cents sold somewhat freely at 115, getting 198,500 back to the price at which they were held 259,150 before the dull period set in, nearly a 333,500 month ago. Washington Gas was also about a point higher until about 100 shares had been bought in, when the selling price eased off half a point. The sales recorded established a new high record for the stock on the present move-

ment. The railways did not show the same advance in price. Capital Traction sold at 1281/2 and declined half a point. Rail-144% way preferred showed a quarter of a point between the highest and lowest selling prices. A few of the bank shares came out on the call.

MINISTERLANDING S

AN AUGUST DAY.

The day is hot, and people stand and gasp like fishes on dry land. And every fellow-man you meet will talk of nothing but the heat. And people swear, and swoon, and sweat, and only wish they might forget. And I, who've lived a hundred years, and sought throughout this vale of tears, all kinds of wisdom, do not care a cent for superheated air. I sit and read a rigmarole of how Matt Henson found the pole. That dauntless man, of swarthy face, the hope and glory of his race, that dauntless man pursued his quest, through snowdrifts reaching to his breast, and froze his feet and ears and nose, and lived on ice and sifted snows; and chilblains caught him when he slept, his tears were frozen when he wept. And when I've read a lot of dope about this frosty Ethiope, I always wish that I was rolled in blankets to keep out the cold. WALT MASON. (Copyright, 1919, by George Matthew Adams.)

GRAIN AND PROVISIONS. BALTIMORE PRODUCE MARKET.

COTION MARKET.

Quotations furnished by W. B. Hibbs & Co., members of the Chicago Board of Trade, Hibbs Building.

Chicago, Aug. 15.—Wheat opened at a sharp decline, ranging from % to 1½: milled fractionally, only to break again under liquidation by local professionals and the influence of an array of bearish statistics. Owing to the holiday on the Continent there was not much in the way of expert business, although Baltimore shipped to France and New York reported a charter of 18,000 quarters steamer for French ports. September wheat in Baltimore gained in premium again over this market, to-day's difference showing three cents. Outside markets were about on a parity with our own, with a good demand reported in the Southwest for current receipts.

Local receipts, 446, with 517 estimated for tomorrow.

Corn opened weak on further rainfall west of the river, but rallied sharply on buying by local professionals and commission houses. The advance was all lost, due to reports of further rains, some selling of corn for shipments by the country, and the weakness in wheat contributing. Selling by the country comes from the sections where the crop llooks good.

Local receipts, 101 cars, with 136 estimated for to-morrow.

Oats yielded fractionally to the pressure of the enormous movement, although considering the weakness in other grains the decline was trivial. Prices may sag still lower, but we do not advise short sales. Quotations furnished by W. B. Hibbs & Co., members of the Chicago Board of Trade, Hibbs Baltimore, Aug. 15.-Quotations by Baltimore Fruit

The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock markets. First deed of trust notes (first morigages), well accured on real estate in the District of Columbia, constitute "gitt-edge" investments. They do not depend upon the financial responsibility of indi-viduals or corporations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send fer booklet, "Concerning Loans and Investments." booklet, "Concerning Loans and Investments

A WEEDY OUTLOOK.
Weeds in the garden come up first,
And come up pretty fast,
They come up all the season through,
And also come up last.
